
This is what people say who've used the methods that you'll learn in this course.

Vicky Townshend, Brighton Sussex

After a few weeks of applying Sharon's methods, Henry and I are much more relaxed with each other and he has calmed down considerably. I would not hesitate to recommend Sharon Bolt to anyone struggling with a canine calamity. Money very well spent.

Rose Pattenden, Crawley Sussex

I just had to write to say thank you. I have got my lovely dog, Bonnie, and my life back! Peace reigns! Your technique works like magic, it is a miracle! (and worth every penny!) I couldn't be more pleased.

Hi Sharon

Well! - I have two completely different dogs, we have gone from very serious fighting to two very balanced, obedient, and calm dogs! Your methods were incredibly simple to follow and slotted perfectly into our daily routine, but what a difference! As I am writing this I am watching the same two dogs that were previously fighting and drawing blood, rolling around on the floor playing together!

I cannot tell you how relieved I am that I contacted you and how much fun I am now having with the two of them. I would (and have!) recommend you to anyone who needs help with becoming leader of their pack! Thanks again.

Dear Sharon,

I just wanted to thank you for the miracle that you have performed with my two dogs. I now have two dogs that I love and enjoy. In February, I thought that I would have to get rid of one of them and, at times, would have been glad to see the back of both of them. Your advice has stopped the vicious fights that were becoming ever-more frequent and dangerous.

What I really admired was the way that you were prepared to get down on the floor and tackle Bertie when he was snarling, ready to bite and potentially very dangerous. It was also the fact that you didn't come and tell me a set of rules, you adapted your advice to suit my individual dogs and their behaviour. You really thought on your feet and reacted to the problems that they presented.

I took Edie to the vets this week and he asked me about how the dogs were getting on, knowing that I had had problems. I told him about you and he asked me if I'd recommend you. I didn't hesitate in saying yes.

If I think about all the money that I have spent in buying two pedigree puppies, their beds, toys, injections, crates, training, insurance etc, the cost of your services seems very good value indeed. Thank you for everything.

Jill & Leigh, London

I just wanted to say a big thank-you for training us and Nelly & Doris. We can't believe the changes! Doris has gone from a hyper, barking, dog hating puppy, following me around everywhere, to a calm, dog liking puppy! Nelly has gone from a timid, nervous dog scared of paper (!) to be much more relaxed and friendly.

We are thrilled at the outcome and great approach you've had towards us and our dogs and would advise anyone to do this training. Thanks again.

Having no previous experience of owning and training a dog, we could have spent months studying books on dog behaviour. What we did do was the best investment and had a consultation with Sharon Bolt. When we had finished our session, it was as though we had read several books in one sitting. Sharon taught us that the key to understanding a dog was to forget about trying to fit our human psychology to our dog and taught us how to understand our dog's way of thinking instead. It was fascinating we felt we were experts after just one session. Headley has grown into a delightful, lovely-natured and fun-loving teenager.

For anyone who invests in a dog, a session with Sharon is the next best investment you can make.

Thank for all your help with Benji, we are getting on so much better now, he is a different dog, thanks to you. I will always recommend you to any of my friends that have a doggy problem. He sleeps every night in his cosy bed now and readily eats his dog food, I no longer have the stress of getting him to eat or sleep. Benji rarely barks at cars now which is a big improvement and doesn't get overly excited when the door- bell rings. Benji no longer craves constant attention and is all together a much happier, calm and contented little dog.

I am very pleased with his progress and I am still practicing my pack leader role in the house. Many thanks.

Vicki Janes, Crawley Sussex

I participated in a radio show where they were looking for someone with unruly dogs (me) to see if the training would work. I was sceptical but was prepared to try anything. After Sharon taught us what to do we have changed dogs, they are much calmer and relaxed and we are in charge not them! They were extremely good with the fireworks this year much to my amazement and they spent 3 weeks on holiday with my mum, who followed the method and couldn't believe the change.

I would highly recommend this to anyone.

Sharon is certainly our leader!

Having spent time with Sharon and my Westie, Woody, both my family and I have learnt also to be pack leaders.

Woody, whilst a completely lovable and very cute West Highland Terrier was also very confused and protective over his home and his family. He was also quite quick to react to situations and was always very "busy".

Through Sharon's teachings and wonderful calm demeanor we've learnt that we just need to take the stress and responsibility out of Woody's life so he doesn't have to worry about taking control and being in charge but be secure in the knowledge that we will do it as his human carers and all he's got to do is relax!

Simple changes to our behaviour have had dramatic affects on his. We're still learning and we make mistakes by not always being consistent but its an education process for us too. Woody and all the family are benefiting in such a positive way.

Sharon's approach to becoming a pack leader is straightforward and simple to understand; it just takes commitment and a will to want to change. Some of the techniques I am even using with horses and children!!!

Exceptionally worthwhile and thoroughly enjoyable too!

Hi Sharon, I want to let you know how thrilled I am that I came across your website, because I have learned so much and it's all so simple and practical and makes such sense. My husband and I have always rescued German Shepherds, which is rewarding within itself, but it has at times been difficult when trying to overcome some of the dogs behaviour issues (if only I had known about you then)!

When sadly our last dog passed to the big garden in the sky, we decided this time to have a puppy that would come with no learned behaviour issues, so whilst looking for

the right breeder I came across your fabulous website, so having read various articles I then purchased your E-book and video on puppies and that was it I (and of course hubby) have never looked back. We have, thanks to you an amazing well behaved, well balanced GSD who is a pleasure to walk, is well socialised and house trained and it's all thanks to you.

You understand both dogs and their owners and your practical advice works every time, you are a caring, gentle person who wants to share with others the enormous joy that is to be had when owner and dog have a balanced relationship, and it is joyful thanks to you .

Bless you and thank you Sharon.

I'd like to say how proud I am of my dogs! I now realise what the strains and stresses of being the leader of the pack had been putting on them. By listening to proven techniques and a whole load of common sense, my family has been able to make small behavioural adjustments and achieved big results. All the changes WE have made and our dogs have followed.

Much to my delight my position in the household has changed and I am now, for the first time, above the dogs. It is as if you, Sharon, have finally given me permission to become a leader. My dogs are happy in knowing that all they'll ever need will be given to them, along with lots of love. We expect nothing from our dogs but we receive unconditional love and loyalty in return. Thank you for opening our eyes Sharon and I'm sure the greatest thanks would come from Buzz and Pebble if only they could talk!

I mean every word Sharon, my gratitude is sincere. Thank you.
